About us

PT. ALADIN SAKTI METAL ENGINEERING (Formerly known as PT. ALADIN METAL INDUSTRY)

Dear Customers,

Since the establishment of PT. ASME, I have tried to instill a craftsmanship attitude in the things we make, to take pride in providing solutions to fulfill the customer's demands. This is part of the reason why we have a logo of the genie lamp. We have built our business with the mission to offer quality custom made products with competitive pricing on a timely manner and will do so for as long as the business stands.

We have 20 years of experience in general fabrication (piping, chimneys, storage tanks & pressure tanks) and have catered to clients in sectors such as the paper, food and chemical industry.

Our company has come a long way from our humble beginnings, gaining more experience along the way, and our mission unchanged. With all this, I believe that we can offer competitive advantages that is beneficial to our clients.

Thank you for your consideration and we hope to have you as a client.

Faithfully Yours,

Martin Jawan
Managing Director & CEO

Our Workshop

Our Clients:

PT. Bukit Muria Jaya

PT. Petrotec Air Power

Our Products & Services

We have a range of diverse products, ranging from storage and pressure tanks, to process machineries, such as heat transfer & steam generation equipments, reactor tanks and many more.

We accept general custom fabrication orders, our capabilities are:

- Plate Bending
- Plate Rolling
- Piping Works
- Beams (Splitting, Straightening and Rolling)

We also offer additional auxiliary services (piping, electrical & instrumentation) to go with our products. Jobs such as factory wiring, automation, safety, automatic control, electro-mechanical and electro-hydraulic parts and etc. can be well handled and installed by our staff.

All our products and services are subject to any custom specifications, and we aim to fulfill them.

Storage & Pressure Tanks

Pressure Tank

We supply pressure vessels, both air and water receiver tanks. The minimum capacity we can cater starts at 200 Litres. Depending on the specifications, our pressure tanks can withstand up to 40 bar and it includes:

- Safety Valve
- Pressure Gauge
- Nozzles
- Depnaker (Indonesian Department of Manpower and Transmigration) & Disnaker Tangerang Certification

Our pressure vessels adhere to the ASME Boiler and Pressure Vessel Code (BPVC) and are open to customisation.=

Storage Tank (AISI Type 304 SS)

Autoclaves (Retort Tanks)

Autoclave (Retort Tank)

PT. ASME have produced autoclaves for a variety of applications, including food processing and laboratory research. We can cater to both top and side opening doors and can either be made with stainless steel or mild steel.

Mixing Tanks (Reactor)

Double Jacketed Mixing Tank (Reactor Tank)

Mixing tanks are used to ensure solution consistency, i.e. to spread solubles evenly with its solution. There are a few types, such as double-jacketed mixing tanks, ribbon mixer tubs and reactor tanks. Depending on its function, we can customize the external of your mixing tank and the blade (Paddle, ribbon, homogenizer & etc.) for your production needs.

Ribbon Mixer

Heat Transfer & Steam Generation Equipments

Thermal Oil Boiler

We offer all kinds of heat transfer and steam generation equipments, ranging from steam boilers (fire-tube, water-tube & combination), thermal oil heaters, heat exchangers and condensers.

Steam Boiler

Other Products

Induced Draft Fan

Sizing Pit

Fiberizer

Paper Industry Process Machinery

Double Roll Crusher (Mining)
